

“

“We engaged with IBIS to provide the services needed to create a holistic understanding of our Core SAP processes supported in one SAP ERP system, the user base involved in execution of those processes, as well as customizing the business process structure to reflect our custom processes and development. The services included a customized SAP Solution Manager Workshop, RBE Plus Potential Analysis, RBE Plus User & Role Analysis and Customized Business Blueprint.”

*Charles MacIver, Senior Program Manager,
Enterprise Services, Microsoft Corp.*

Microsoft Corporation is an American multinational software corporation headquartered in Redmond, Washington that develops, manufactures, licenses, and supports a wide range of products and services related to computing.

Microsoft employs 114.000 people worldwide (June 2016).

Microsoft used the IBIS Solution Manager Workshop, IBIS SDA Starter Package, RBE Plus Potential Analysis and RBE Plus User & Role Analysis to prepare for future projects for their Core SAP ERP instance.
